Journal of Hydrology, 153 (1994) 441–442
Elsevier Science B.V. Amsterdam

CONTENTS

Research Papers

Flood frequency analysis for ungauged sites using a region of influence approach
Z. Zrinji and D.H. Burn 1

Analysis and prediction of chaos in rainfall and stream flow time series
A.W. Jayawardena and F. Lai 23

Evaluation of Rhodamine WT as an adsorbed tracer in an agricultural soil
C.J. Everts and R.S. Kanwar 53

Evaluation of longitudinal dispersivity from nonuniform flow tracer tests
C. Welty and L.W. Gelhar 71

A regional model for estimating the probability distribution of routed peak discharges
L. Bertoli and U. Moisello 103

The effect of a confining unit on the geochemical evolution of ground water in the Upper Floridan aquifer system
C.M. Wicks and J.S. Herman 139

Groundwater residence time in palaeohydrology in the Otway Basin, South Australia: ^{2}H, ^{18}O and ^{14}C data
A.J. Love, A.L. Herczeg, F.W. Leaney, M.F. Stadter, J.C. Dighton and D. Armstrong 157

Note on common mixing cell models
K. Bajracharya and D.A. Barry 189

Coupled use of thermal and hydraulic head data to characterize river – groundwater exchanges
C. Doussan, A. Toma, B. Paris, G. Poitevin, E. Ledoux and M. Detay 215

Dissolved inorganic and organic carbon in moorland and forest streams: Plynlimon, Mid-Wales
C. Neal and S. Hill 231

A hydroclimatological model of areal drought
I. Bogardi, I. Matyasovszky, A. Bardossy and L. Duckstein 245

A coupled synoptic–hydrological model for climate change impact assessment
R. Wilby, B. Greenfield and C. Glenny 265

Paleofloods and a dam-failure flood on the Virgin River, Utah and Arizona
Y. Enzel, L.L. Ely, J. Martinez-Goytre and R.G. Vivian 291

An analysis of the influence of river channel properties on flood frequency
C.G. Wolff and S.J. Burges 317

Some Eulerian and Lagrangian statistical properties of rainfall at small space–time scales
R. Berndtsson, K. Jinno, A. Kawamura, M. Larson and J. Niemczynowicz 339

Spatial and temporal variability of stormflow generation processes on a Swiss catchment
J.P. Jordan 357

Application of the daily rainfall–runoff model MODHYDROLOG to 28 Australian catchments
F. Chiew and T.A. McMahon 383

Discussions

Parameter estimation for the Pearson type 3 distribution using order statistics (Durrans, 1992) — Comment
P.F. Rasmussen, B. Bobée and J. Bernier 417

Parameter estimation for the Pearson type 3 distribution using order statistics — Reply
S.R. Durrans 425

Book Reviews

Simulated Real-Time Intercomparison of Hydrological Models by WMO — E.T. Engman 433
Snow Cover Measurements and Areal Assessment of Precipitation and Soil Moisture by B. Sevruk (Editor) — E.T. Engman 434
Remote Sensing for Hydrology — Progress and Prospects by R. Kuittinen — E.T. Engman .. 435
Urban Stormwater Hydrology. A Guide to Engineering Calculation, A. Osman Akan — C.T. Haan 436
